ParlAmericas Statement on the Earthquake in Haiti

ParlAmericas expresses its solidarity with the people of Haiti for the loss of life, injuries and destruction caused by the earthquake that struck the Sud, Nippes, and Grand'Anse departments on August 14, 2021. We wish to convey our condolences to the people whose lives have been shattered by this earthquake and our hope that life-saving efforts that are still underway are spared from the brunt of Tropical Depression Grace.

ParlAmericas reaffirms its commitment to measures that favour management of disaster risk and calls for cooperation to provide assistance where this is possible and requested.
