ParlAmericas statement on the situation in Peru

ParlAmericas, as an institution that promotes the strengthening of democracy and parliamentary diplomacy in the inter-American system, and that ensures cooperative political dialogue and multi-party consensus, expresses its deep concern over the events that occurred on December 7, 2022 regarding the attempt by former President Pedro Castillo to dissolve the Congress of the Republic of Peru and establish a state of exception.

ParlAmericas, recognizing the importance of the principle of sovereignty, encourages the institutions of the Republic of Peru to continue to re-establish democratic order, guarantee political stability and preserve the rule of law through peaceful dialogue and concerted action.
