

Guidance for Women in Public Life on Responding to TFGBV on Social Media

This guide for women in public life is part of the toolkit for parliamentarians informed by the findings and inputs of women parliamentarians who participated in the regional study and the meeting on catalysing regional action on technology-facilitated gender-based violence against women in public life in the Caribbean, undertaken through a collaboration between UNFPA, ECLAC and ParlAmericas. The study amplified the voices and lived experiences of women leaders across the region and identified practical actions to strengthen prevention, protection and response efforts.
